Summary

Master's student at Imperial College London and Lead GenAI Engineer (Part Time) at Anarix, specializing in developing AI agents, MCP, and scalable MLOps systems on AWS. Experienced in leading end-to-end AI initiatives from model design to deployment, including the development of JIVA, an advanced AI agent platform for e-commerce advertisers. Passionate about building intelligent, context-aware systems that bridge research and real-world applications through innovation in generative AI.

Education

Imperial College London

Sept 2025 – Sept 2026

Msc in Artificial Intelligence Applications And Innovation

Vellore Institute of Technology, Chennai

June 2021 – June 2025

BTech in Computer Science Engineering With Spl. In Artificial Intelligence And Robotics

Experience

Lead GenAI Engineer (Part Time)

Sept 2025 – Present

Anarix

- Leading the AI Division at Anarix, managing multiple projects including the AI Bidder System, Competitor Price Index, and Review Sentiment Analysis.
- Spearheading the development of JIVA 2.0, an advanced AI agent for reporting, reasoning, and intelligent automation. Built on the Model Context Protocol and powered by GPT-4.1, it autonomously generates insights, interprets data, and supports decision-making for account managers.
- Achieved a 90% reduction in research and report preparation time through intelligent automation, enabling faster data-driven decisions and enhanced operational efficiency across client teams.
- **Tools & Technologies:** Python, LLM, MCP, RAG, FastAPI, LangChain, OpenAI API, AWS(EC2, SageMaker, S3, Lambda & Bedrock), NumPy, Pandas, PostgreSQL, Redis, Docker, and Streamlit.

Machine Learning Engineer And AMC Lead

Dec 2023 – Aug 2025

Anarix

- Led the initiative to upgrade Anarix's Amazon Marketing Cloud capabilities to version 2.0 by integrating Large Language Models to deliver actionable insights and support strategic decision-making.
- Built and led a team to develop a comprehensive Review Sentiment Analysis platform powered by GPT-4, providing detailed insights and data-driven recommendations for product enhancement and marketing optimization.
- Spearheaded the creation of a Competitor Price Index system, enabling real-time analysis of pricing dynamics during promotions and helping brands optimize pricing strategies to maximize revenue.
- Designed and implemented an advanced AI Bidding System for Amazon advertisers using AWS SageMaker, developing an end-to-end pipeline to optimize bids, improve conversion rates, and enhance return on ad spend.
- Developed JIVA, an AI agent prototype built on a Retrieval-Augmented Generation architecture and integrated with AWS Bedrock, enabling intelligent automation for reporting and data interpretation tasks.
- **Tools & Technologies:** Python, LLM, PyTorch, Tensorflow, RAG, AWS(EC2, SageMaker, S3, Lambda & Bedrock), GPT-4, LangChain, FastAPI, PostgreSQL, NumPy, Pandas, Docker, Streamlit, and Amazon Marketing Cloud.

Data Analyst Intern

Sep 2023 – Nov 2023

NapQueen Sleep

- Gained in-depth expertise in Amazon Marketing Cloud and led a development team to design, build, and integrate a new feature into the company's SaaS platform within one month, accelerating product innovation and delivery timelines.
- Spearheaded the development and deployment of a time series forecasting model for inventory management, enhancing predictive accuracy and improving operational decision-making efficiency.
- **Tools & Technologies:** Python, Amazon Marketing Cloud, AWS, FastAPI, XGBoost, Pandas, NumPy, and PostgreSQL.

Awards

Technical Product Innovation Award – Walmart Connect

2025

- Led the development of **JIVA AI Agent**, which played a key role in helping **Anarix** win the Walmart Connect Technical Product Innovation Award.

Honorary Mention – AMD Hackathon

2025

- Participated in the hackathon under the **MCP Agent Creation** category and received an honorary mention for developing an MCP agent for meeting scheduling.

Runner-Up – App Frenzy 2.0

2023

- Awarded runner-up for developing an application to monitor and evaluate exercise forms for fitness enthusiasts using **Mediapipe**.

Certifications

- **Amazon Marketing Cloud Certification** – Amazon
- **Neural Network and Deep Learning** – DeepLearning.AI
- **Python for Data Science and Machine Learning Bootcamp** – Jose Portilla
- **The Complete Python Bootcamp From Zero to Hero** – Jose Portilla
